Application

Product is not suitable for pre-dilution
Apply undiluted to the application with a suitable dosing device or use manually.

Shampoo:
In automatic car washes as brush shampoo (5–10 ml/car; 30–100 ml/truck; 5–10 ml/m vehicle length).
In self-service jet washes as brush foam (12–20 ml/min).
In self-service jet washes as high-pressure application (10–20 ml/min).
The dosage should be set so that a slight foaming is visible during application.

Foam:
In automatic car washes as active foam (14–20 ml/car).

Manual vehicle wash:
(1–2 ml/L; 1:500-1:1000).
When washing with a sponge or cloth and a bucket, select a dosage where slight formation of foam is still visible.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, anionic surfactants 5–15%, additives, dyes, fragrances (Terpineol), preservatives (Benzisothiazolinone).
pH value (concentrate): approx. 9
