

Oxycal

Sanitary cleaner with fresh-air effect

- ▲ Fast-acting, active cleaning sanitary routine cleaner with a bleaching effect
- ▲ No unpleasant odours due to the oxidative effect of the oxygen
- ▲ Removes limescale as well as cosmetics residues and soap scum in the entire wet area
- ▲ A fresh and intense fragrance during use
- ▲ Improvement in the air quality (fresh-air effect)

Area of application

Can be used on acid and water-resistant surfaces and objects in sanitary areas. Particularly suitable for high traffic areas, e.g. airports and train stations. Acid-sensitive surfaces, such as damaged chromium coatings on fittings, brass, anodised aluminium, polyamide and acid-sensitive natural and artificial stone, can be damaged by products containing acid.

Application

Please test on a small inconspicuous spot before first application. Always water joints and fittings beforehand with cold water. Rinse all treated surfaces with water.

Routine cleaning (surface cleaning):

Apply the product undiluted or with a dilution ratio of up to 20 ml to 4 L of cold water, depending on the degree of soiling. Wet the surface with the product or cleaning solution and clean with a cleaning textile. For toilet bowls and urinals, spray the undiluted product under the rim, leave it to react for a short time, clean and flush with water.

Routine cleaning (wiping):

Up to 40 ml to 8 L of cold water, depending on the degree of soiling. Wet the surface with cleaning solution and clean with a mop. Consumption: 1.0–3.0 ml/m².

Basic cleaning (removal of limescale/descaling):

Apply the product to the surface, either undiluted or with a dilution ratio of 1:5. Clean the surface and rinse with water. Consumption: 5.0–10.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, oxygen-based bleaching agents < 5%, organic acids, additives, fragrances.

pH value (concentrate): approx. 1.5

pH value (ready-to-use solution): approx. 7

Classification

Classification (in concentrate): GHS07, Warning. H319 Causes serious eye irritation. H315 Causes skin irritation. P280 Wear protective gloves/eye protection. P302+P352 IF ON SKIN: Wash with plenty of water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
